

Chell Instruments Ltd

Environmental Policy

Re-use, Recycle, Reduce

It is the policy of Chell Instruments Ltd to conduct its business in an environmentally friendly way, within reasonable cost, and to comply with environmental and waste legislation.

To this end all improvements carried out within the premises have been and will continue to take due regard to good practice, energy conservation, minimum wastage and safe procedures.

In particular:

Purchasing policy is reviewed periodically to identify savings in utilities, communications and administration.

Waste paper and cardboard is sorted and recycled.

Packaging materials are recycled wherever possible.

Hazardous waste is disposed of in accordance with waste disposal legislation.

Purchase and handling of chemicals is controlled and regularly reviewed.

Ink cartridges are saved and recycled.

Electrical waste is recycled according to the WEEE regulations.

All employees are encouraged to contribute in the form of adherence to best practice procedures and the implementation of new ideas, in so far as is practicable.
